

Reg.: OY-

Recommendation for the issue of an Airworthiness Review Certificate, (EASA form 15a)

This is to certify that a full review has been performed, containing at least the following items:

<p>General information:</p> <p><input type="checkbox"/> M.A. Subpart G organization approval: DK.MG 1006</p> <p><input type="checkbox"/> Owner/Lessee information</p> <p><input type="checkbox"/> Date and place for the document review</p> <p><input type="checkbox"/> Period and place the aircraft can be seen if required by the competent authority</p> <p>Aircraft information:</p> <p><input type="checkbox"/> Registration</p> <p><input type="checkbox"/> Type</p> <p><input type="checkbox"/> Manufacturer</p> <p><input type="checkbox"/> Serial number</p> <p><input type="checkbox"/> Flight manual reference (Revision status, Identification/Name)</p> <p><input type="checkbox"/> Weight and centre of gravity</p> <p><input type="checkbox"/> Maintenance program reference, Rev. status</p> <p>Documents accompanying the recommendation:</p> <p><input type="checkbox"/> Copy of registration papers</p> <p><input type="checkbox"/> Copy of the owners request for a new Airworthiness Review Certificate</p>	<p>Aircraft Status:</p> <p><input type="checkbox"/> Aircraft total time and cycles</p> <p><input type="checkbox"/> List of persons or organizations having carried out Continuing airworthiness activities including maintenance tasks on the aircraft and its components since the last Airworthiness Certificate issued.</p> <p>Aircraft Survey:</p> <p><input type="checkbox"/> A precise list of the areas of the aircraft that were Surveyed and their status</p> <p>Findings:</p> <p><input type="checkbox"/> List of all findings made during the airworthiness review with the corrective action carried out.</p>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

This statement confirms that the aircraft in its configuration complies with the following:

- | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> • Airworthiness directives up to the latest published issue • Type Certificate Data Sheet • Maintenance program • Component service life limitations | <ul style="list-style-type: none"> • Valid weight and centre of gravity schedule reflecting the current configuration of the aircraft • Part 21 for all modifications and repairs • Current flight manual including supplements • Operational requirements |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

The above items should clearly state the exact reference of the data used in establishing compliance; for instance the number and issue of the type certificate data sheet used should be stated.

The statement should also confirm, that all of the above is properly entered and certified in the aircraft continuing airworthiness record system and/or in the operators technical log.

NOTE: If the result of the full airworthiness review is unsatisfactory or inconclusive then this form, along with all the necessary supporting data should, be sent to the CAA in order to satisfy the requirements of M.A.710(h)
